INSTANT POLISH LINE

A faster, easier way to achieve a #8 mirror finish

Industries

Automotive & Transportation

Food & Beverage Equipment

Marine Equipment Manufacturing & Repair

Pharmaceutical

Construction & Interior Design

Instant Polish products provides a mirror finish in a single step, allowing you to eliminate steps in the finishing process and save time and money. The paste can be purchased on its own or pre-applied to some of our most popular finishing felts.

Product Features

- The only one-step solution in the market to achieving a #8 mirror finish
- Combines WALTER white and blue polishing paste into a one-step solution
- Pre-applied paste available on select finishing/polishing felts
- Saves time by eliminating several steps in the polishing process, including the need to clean in between polishing steps
