

# AF-WELD

## Weld spatter release emulsion for the Air Force automatic refilling system

AF-Weld is the state of the art weld spatter release emulsion which protects work pieces from adherence of high energy spatter and eliminates costly spatter removal operations. AF-Weld is also the only anti-spatter on the market which helps to prevent the formation of weld porosity. Even when used in excess! You can truly relax at welding when using AF-Weld.

### Features & benefits:

- Protects work pieces and welding equipment against sticking weld spatter
- Formulation based on natural plant extracts
- Helps to prevent the formation of weld porosity, even when used in excess!
- For MIG and Arc welding applications as well as plasma cutting.
- Formulated to prevent spatter adhesion for high temperature welding applications such as:
  - Stainless steel welding
  - Multiple pass welding
  - Thin sheet welding
  - Welding pre-heated work pieces
- Excellent corrosion resistance – ideal for ferrous alloys and corrosion sensitive parts
- Versatile product, works equally wet or after the product is dry
- Excellent paint adhesion properties – no special cleaning required for post welding coating operations
- Compatible with aluminum, steel and stainless steel
- Light citrus odor
- Non-flammable, solvent, mineral oil and silicone free
- Biodegradable, not controlled under WHMIS

Description	Size		Order No.:	MSDS
	Metric	Imperial		
Bag-in-box	10L	338 oz.	57-F 005	L-141E

### ACCESSORIES

Air Force refilling station	57-D 110
Air Force refillable sprayer	57-B 110

### Technical Information

Density	0.99 g/ml
Flashpoint	N/A
Odor/color	Green, citrus
pH	8.6
Rinsability	Excellent
VOC	0
