

SURFOX-H

Less Acidic Electrolyte Cleaning Solution

SURFOX-H is an electro cleaning solution that removes weld discoloration and enhances passivation to the work surface without the use of dangerous pickling paste. TIG and SPOT weld discoloration are removed instantly and the original mill finish is restored, requiring no further treatment.

Features & benefits:

- **Reduced in phosphoric acid**
- Highly effective electrolyte cleaning solution
- No scrubbing or mechanical action required
- Instant cleaning of weld discoloration
- Non-flammable, VOC free
- **ASTM A967 certified for chemical passivation for stainless steel**
- NSF registered under category code A3, registration No. 143967
- TIP! Neutralize with SURFOX-N to complete the cleaning process.

Liquid	100ml	3.4 fl. oz.	54-A 011	S-04
Liquid	1.5L	50 fl. oz.	54-A 015	S-04
Liquid	20L	5.2 gal.	54-A 017	S-04
Liquid	208L	55 gal.	54-A 018	S-04

ACCESSORIES

SURFOX-N, 500ml	54-A 023
SURFOX-N, 50L	54-A 027
Standard cleaning pads	54-B 026
Inside corners cleaning pads	54-B 027
Narrow cleaning pads	54-B 028
SURFOX 104	54-D 114
SURFOX 204	54-D 214
SURFOX 104 with Mini Wand and brushes kit	54-D 114
SURFOX 204 with Mini Wand and brushes kit	54-D 214

Technical Information

Density	1.38 g/ml @ 20°C
Flashpoint	N/A
Odor/color	Acidic, Clear
pH (50g/L H₂O)	~1
Risibility	Miscible with water
VOC	0
